SUMMARY OF NOTABLE INCIDENTS

False Info to Police

On May 25th at approximately 4AM an officer was patrolling the Grand River Ave and Mooney St. area due to several thefts that had been reported the week prior in the area. The officer located a black male who fit the description of a male who had attempted to steal a bicycle the week before. The officer had a consent interview with the man who provided the officer with his name. The officer left the man and later noted that the name he had provided was false. The officer was able to search the Law Enforcement Information Network and located the true identity of the man. The officer noted that the man had 7 warrants for his arrest so he attempted to re-locate the man. Another officer found the man, but he ran away as soon as he saw the police vehicle. The incident was turned over to the detective bureau for further investigation.
