

IMPORTANT **NEWS ABOUT YOUR NEIGHBORHOOD**

City of Farmington **Mayfield Street Concrete Construction**

On **Monday, July 27, 2020**, the concrete improvements on Mayfield Street between Cloverdale and Slocum will begin. Access to all homes will remain available, but the driveways to the homes along Mayfield Street will experience a 10-day period in which vehicular use of the driveways will be unavailable. This is required to allow the concrete to cure and gain strength. GM & Sons, a sub-contractor to V.I.L. Construction, will be completing this work which includes curb and gutter, driveway aprons, and ADA sidewalk improvements.

To accommodate this work and maintain access to the homes along Mayfield Street we ask that the following parking arrangements please be followed.

- On street parking along the curb on the streets adjacent to Mayfield Street (such as Cloverdale St., Slocum Dr., and Manning St.) will be acceptable from the hours of 6:30 AM to 7:00 PM. (The contractors normal accepted work shift is from 7:00 AM to 7:00 PM)
 - o The homeowners along Cloverdale St., Slocum Dr., and Manning St. may encounter an overflow of parking during this timeframe.
- Overnight parking on Mayfield Street in front of your home will be acceptable from the hours of 7:00 PM to 6:30 AM.

Please keep children and pets away from the construction operation. Construction activities, and the associated equipment that goes with it, is attractive to small children and can be dangerous. Please keep children away from the equipment, removals, mass grading, underground utility installation, **and wet concrete.**

If you have any specific questions regarding this work, please call **Mr. Austin Downie, Engineer for OHM, at (734) 466-4437, Mr. Clay Stokes, Project Engineer for OHM, at (734) 466,4443, or Mr. Joshua Leach, DPW Assistant Superintendent, at (248) 473-7250.**

Updated information will be handed out and attached to your front door as necessary.

We apologize for this inconvenience, but hope you are excited about the final improvements.
