

IMPORTANT **NEWS ABOUT YOUR NEIGHBORHOOD**

City of Farmington Mayfield Street Paving Notice

Due to the heavy amount of rain which occurred at the end of last week, it was necessary for the paving operation to be pushed back as the stone base must be dry to properly pave the new asphalt road. **Please be advised that asphalt paving is now anticipated to take place Thursday, September 3, 2020.** We kindly ask that any/all cars parked on Mayfield Street during the night are moved off of the street by 6:30 am on September 3, 2020 and that residents do not utilize the street at all while paving operations are taking place. It is anticipated that this work will be completed in one day. Residents will be allowed to again access Mayfield Street and their driveways once paving operations have been completed at the end of the day.

Furthermore, this paving will be for the bottom course, or layer, of asphalt only. There are two courses and the final course will be paved in the coming weeks once restoration as been completed. Rest assured, this is a typical paving operation and there should be no issues for all residents driving on this bottom course or accessing their driveways.

Please keep children and pets away from the construction operation. Construction activities, and the associated equipment that goes with it, is attractive to small children and can be dangerous. Please keep children away from the equipment, removals, mass grading, underground utility installation, **and hot asphalt.**

If you have any specific questions regarding this work, please call **Ms. Jessica Howard, Engineer for OHM, at (248) 751-3114, Mr. Austin Downie, Engineer for OHM, at (734) 466-4437, Mr. Clay Stokes, Project Engineer for OHM, at (734) 466,4443, or Mr. Joshua Leach, DPW Assistant Superintendent, at (248) 473-7250.**

Updated information will be handed out and attached to your front door as necessary.
